

# 1ClickFactory Extension Maintenance Subscription for Dynamics 365 Business Central

1ClickFactory Extension Maintenance service ensures Extension compatibility with the upcoming Dynamics 365 Business Central SaaS versions and saves Dynamics Partners from the required additional effort.

The service is provided for a **fixed monthly subscription fee**, that delivers **constant monitoring** and applies a **field-tested methodology and tools**.

The Extension Maintenance Service helps Dynamics Partners to:

- **Reduce financial risk**

Ensure customers' business continuity with a consistent quality service with predictable costs.

- **Enhance efficiency**

Increase efficiency by eliminating additional technical work and freeing up time during new releases.

- **Achieve scalability**

Ensure efficient capacity utilization that allows Dynamics Partners to maximize business activities and scale when a high number of customers asks for updates at the same time.

- **Increase revenue**

Grow profit by setting a profitable margin based on the consistent fixed monthly cost.

The fixed monthly fee for the Extension Maintenance is calculated based on Extension customization level and service delivery frequency. To find out more about Extension Maintenance price and scope, [download the service description](#). To request this service, [visit the 1ClickFactory Business Portal](#).

**Get Extension Maintenance service for free for 6 months!**

This offer is valid for all Dynamics Partners participating in the Directions EMEA event who place an upfront one-year order and sign an SSDA **before** November 13, 2020. The number of offers **available** is limited.
