

1ClickFactory C/AL to Extension Analyzer: Online Assessment in just 1 Day

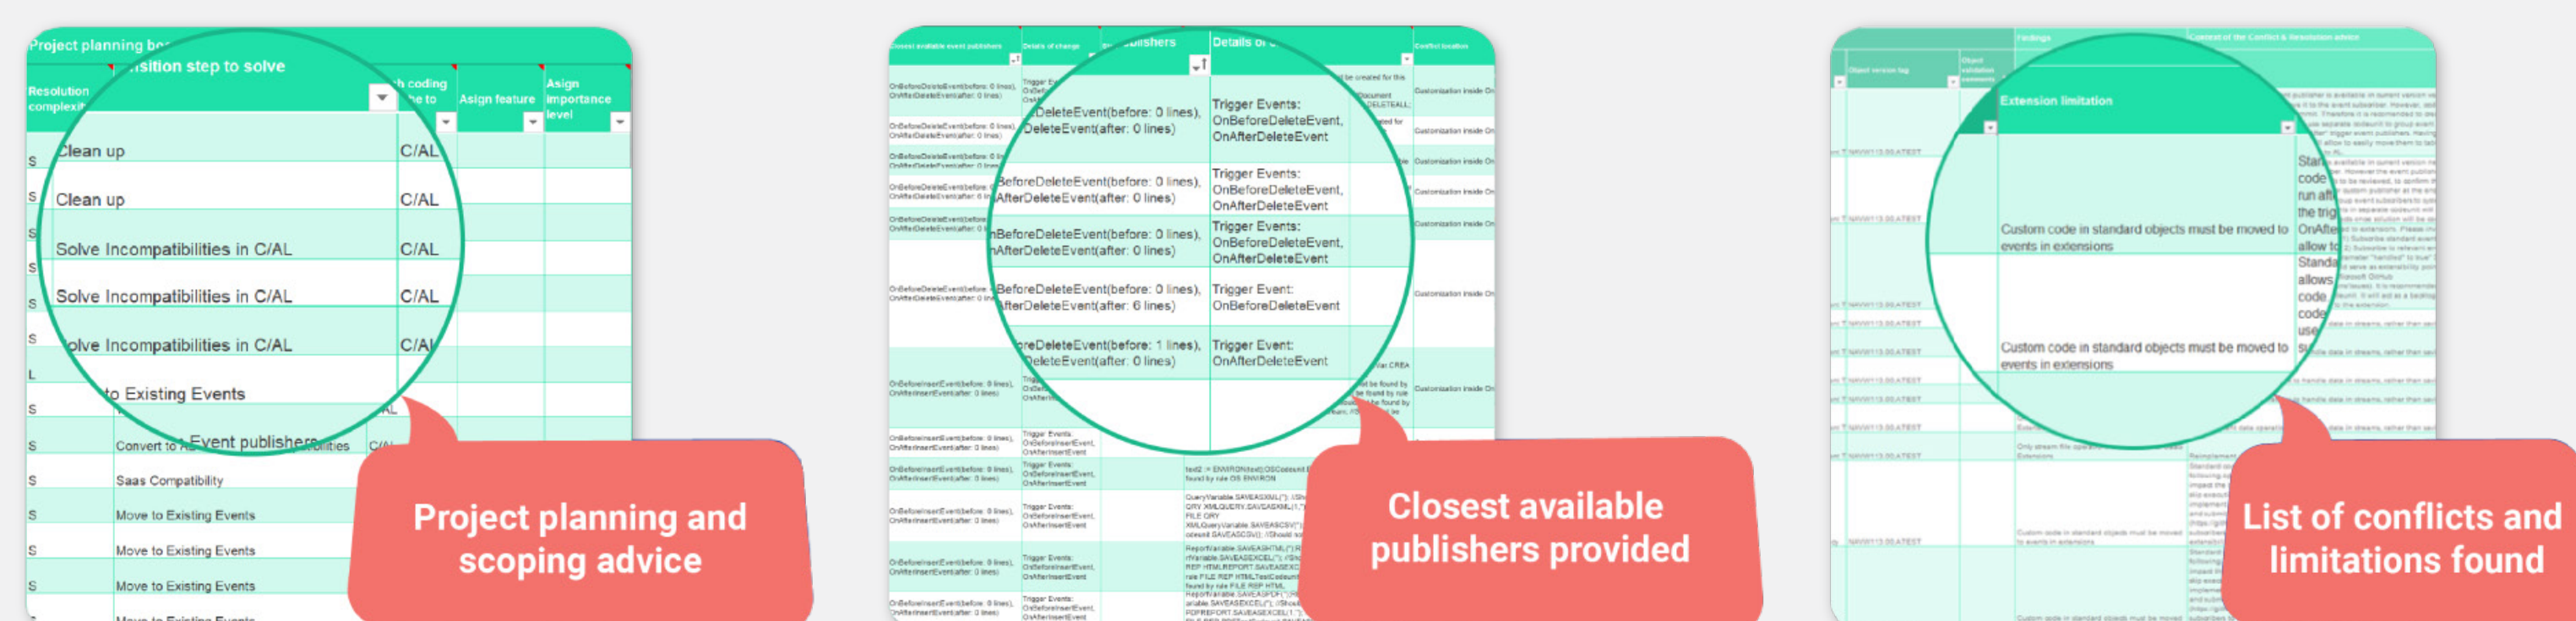

Get ready to transition a customized C/AL solution to Extension and Microsoft Dynamics 365 Business Central SaaS.

1ClickFactory C/AL to Extension Analyzer is an online service that analyzes an uploaded C/AL solution in just one day. It provides an Excel file with a list of conflicts that need to be resolved for the solution to become an Extension and helps to evaluate:

- The list of code modifications that need to be moved to Events with an assessment of compatibility to be moved to Standard Events.
- The list of NAV features used in the solution that are no longer supported in Extensions.
- The list of unsupported Table modifications.
- The list of NAV Role Tailored Client features that are not supported anymore in the Web Client.

*For the full list of analysis features please visit the 1ClickFactory website and download the [limitations list](#).

The C/AL to Extension Analyzer report can be used as a working document for scoping and planning the transition, it includes:

The C/AL to Extension Analyzer is based on the 1ClickFactory knowledge base that we have accumulated during the consultation and implementation of over **200 C/AL solution transformation** projects. The report provides detailed guidance on the optimal C/AL solution transition to Extension and **saves 90% of the time** that is required to conduct manual C/AL solution analysis.

The C/AL to Extension Analyzer report price is **499 EUR**. To obtain the report, **upload a.FOB file on the 1ClickFactory Business Portal**.

To explore all of the benefits of the C/AL to Extension Analyzer Report, you can now try it for free!

This offer is valid for all Dynamics Partners who haven't obtained the full report before.
